Subject: from Kiran: On Statewide Hospital Water Supply Disruption Exercise Today (17 November, 2011)

17 November, 2011

Frank Quiambao
Special Advisor to the Secretary
CAL-EMA

Greetings Frank.

In capacity of a private citizen, I beg your brief indulgence with this note.

I learned about this Statewide Hospital Water Supply Disruption Exercise (<http://www.calhospitalprepare.org/>) at my American Red Cross Rancho Region Greater Long Beach Chapter Disaster Services Volunteers' meeting yesterday evening. Thought I bring it to your attention.

A suggestion....Perhaps, one day, the "lessons learned" from this exercise module* can be further integrated in a state-wide plan for emergency preparedness for a possible near term three-year disruption of water supply from Bay-Delta disaster - a subject matter that Mr. Phil Isenberg (Chair of [Delta Stewardship Council](#)) briefly broached at [MWDSC](#) hearings last month arranged for/by Assemblywoman Bonnie Lowenthal (54th District).

The website of Cal Hospital Association above has other useful documents for the review. Pray you have seen the enclosed information on mobile desal units at http://www.water.ca.gov/desalination/pud_pdf/Mobile_Desalination.pdf . I found it useful. Please share.

My apology for any duplication if you were already aware of this subject matter of this exercise. I am sure someone from your organization is participating.

Best regards and thanks.

Kiran.
